DRAGON DRYER

DEHUMIDIFIER 2400
(800) 453-2653

REMOVES 30 GALLONS OF WATER PER DAY!!!

Dragon Dryer 2400 Dehumidifier

Dual handles for maneuverability—use lower handle for easy moving, upper for stairs and loading

Rotomolded housing—no sharp edges, won't dent or rust - always looks good

Soft, semi pneumatic tires—cushioned ride smooths the way on the stairs, over curbs, even on gravel

Quality Compressor-no "hard starts"—lasts longer, low maintenance, starts every time

Intelligent hot-gas bypass—automatic defrost down to 33°F eliminates freeze-ups

Choice of Filter Type—use either cleanable foam, or disposable paper filter

EZ Loading Rollers—roll into and out of trucks without damage to vehicle or equipment

Electronic Touch Pad Controls—damage-resistant, easy to use

Easy Ducting—built-in 6" ring is always ready for disposable ducting

25 ft. power cord—reach each power source with maximum length allowed under UL

40' drain hose—goes where you need it

Covered loading rails—makes loading and unloading easier

Electronic Touch Pad

The electronic touch pad allows you to turn on the unit with a touch of a button! Also features a purge function, which pumps excess water out before transport, helping eliminate spills and clean-up.

Easy Loading

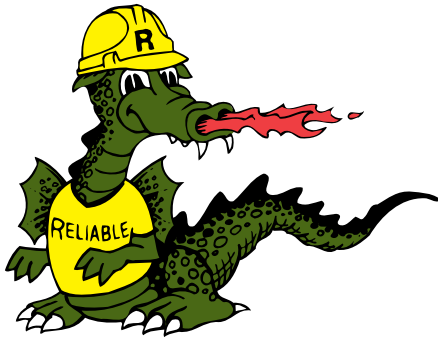

The EZ Loading Rollers and convenient handles make this large dehumidifier a breeze to load in and out of vehicles. Just tilt back and slide in - addition of metal rails prevent damage to unit and surfaces.

Pump Maintenance

Now it's easier than ever to keep up with routine maintenance of the pump. Just four screws.

DRAGON DRYER

DEHUMIDIFIER 2400

(800) 453-2653

The Dragon Dryer dehumidifier meets the demands of the entire drying industry, from basic construction to emergency applications.

The Dragon Dryer has an attractive rotomolded housing that resists scratches, dents and rust. Capable of removing 30 gallons a day, this dehumidifier is easily transported by just one person. It features two handles, loading rollers, semi-pneumatic tires and storage for the cord and pump hose.

The Dragon Dryer starts by touching the "on" button in the electronic touch pad. You will also find a pump purge button that will help prevent leakage when being transported, and a back-lit hour meter.

The Dragon Dryer is energy efficient using just 11 amps of power, and has a built-in duct ring for venting dry air anywhere you need it.

Specifications

Power	115v	11 amps
Operating Range		33° - 100°F
Water Removal Max	240 pints
Water Removal AHAM	148 pints
Compressor		13,315 BTU Rotary
Dimensions	47" x 24" x 27"
Safety	UL C-UL Listed
Use Weight	162 lbs.
CFM Rating	360 CFM
Warranty	7 Year Limited

LayFlat Ducting

LayFlat disposable ducting is a handy way to move air for drying. Attach it to the outlet duct of a Dragon Dryer dehumidifier,

and direct super dry air where you need it. Easy to cut, roll it up walls or around corners. Available in a convenient 500 ft. roll, the 4 mil. LayFlat ducting is 10" wide and inflates to 6.3" diameter.

Choice of Filters

With the Dragon Dryer, you have a choice of either a cleanable foam filter, or a disposable paper one! The foam filter can be re-used over and over again, and can quickly be cleaned by washing or vacuuming.

The white paper filters clearly show owners and adjusters the amount of dust and dirt removal - and saves on maintenance time. Filters in boxes of 10 are available from your Dragon Dryer distributor.
